

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF THE UNION COUNTY)	
WATER DISTRICT, OF UNION COUNTY, KENTUCKY,)	
FOR A CERTIFICATE OF PUBLIC CONVENIENCE)	CASE NO. 90-245
AND NECESSITY; AND APPROVAL OF A PROPOSED)	
PLAN OF FINANCING)	

O R D E R

On August 21, 1990, Union County Water District ("Union Water") filed an application for Commission approval of construction and related financing. Union Water was notified by letter of August 30, 1990 that certain deficiencies existed in its application as filed. A deficiency was noted pursuant to 807 KAR 5:001, Section 9(2), that no plans, specifications, or engineering report sealed and dated by a registered, professional engineer had been provided. Union Water did not provide the engineering report and disk until November 19, 1990 and, therefore, more time is needed to review.

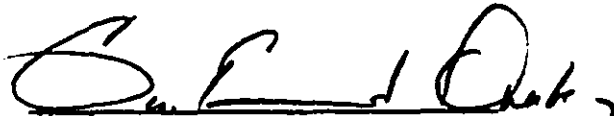

KRS 278.300 provides that the Commission shall have 60 days to consider and rule upon financing applications unless "it is necessary for good cause to continue the application for longer time than sixty (60) days, in which case the order making the continuance shall state fully the facts that make it necessary." The hydraulic analysis and engineering reports were not submitted to the Commission in a sufficient amount of time to determine

whether the construction should be approved within the 60-day statutory period.

IT IS THEREFORE ORDERED that this case is continued beyond the 60-day statutory time period pursuant to KRS 278.300(2).

Done at Frankfort, Kentucky, this 30th day of November, 1990.
